Transition and Transformation Explorations in Language, Literature, Culture, and Translation

How to transition? What are we transitioning to? Will we be able to think about transition before it starts to be imposed on us and to transform us? To be able to name it, to describe it, to ponder over it, will give us an edge or at least some agency over the driving forces imposing "transitioning" on us.

We welcome panels and individual papers on the following themes:

1. Language Change and Cross-Cultural Communication 語言轉變與跨文化溝通
2. Translation and Transmediation: Roles and Challenges 翻譯與轉譯的角色與挑戰
3. Literary Movements and Interdisciplinary Influences 文學流變與跨領域影響
4. Movements and Convergences of Cultures and Their Redefinition 文化移動、融匯與再定義
5. Transitioning to Sustainable Cultures and Its Challenges 永續文化發展與挑戰
